**SAKRETE®**

# Pea Gravel

PRODUCT # 15350

SAKRETE® Pea Gravel is a base material for posts and poles, walks, drives and patios to improve drainage.

## COVERAGE:

### DRAINAGE BASE FOR POSTS & POLES

A 4 in. x 4 in. post requires a 10 inch diameter hole for proper setting. One 60 lb. (27.2 kg) bag of SAKRETE® All-Purpose Gravel fills approximately 5 post holes 10 inches in diameter with a 2 to 3 inch drainage base.

### DRAINAGE BASE FOR WALKS & SLABS

A 2 to 4 inch drainage base is suggested for walks and slabs. The following calculation can be used to determine coverage. Length x width x depth (all in feet) will give the cubic volume. Divide the cubic volume of the area to be filled by 0.6 cubic feet (0.016 cubic meters). This will give the number of bags needed. For example, 4 ft. long x 3 ft. wide x 3 in. (0.25 ft) deep = 3 cubic feet divided by 0.6 cubic feet gives the number of bags needed (6) in this example.

One 50 lb. bag provides approximately 0.6 cubic feet (0.016 cubic meters) of gravel or will fill an area approximately 7 sq.ft. x 1 inch (25 mm) deep.

To determine coverage calculate the following:  
Length x width x depth (all in feet) = cubic feet

## PACKAGING:

50 lb. bag (22.7 kg) UPC: 7-64661-15350-4

## LIMITED PRODUCT WARRANTY

The manufacturer warrants that this product shall be of merchantable quality when used or applied in accordance with the manufacturer's instructions. This product is not warranted as suitable for any purpose other than the general purpose for which it is intended. This warranty runs for one (1) year from the date the product is purchased. ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS PRODUCT IS LIMITED TO THE DURATION OF THIS WARRANTY. Liability under this warranty is limited to replacement of defective product or, at the manufacturer's option, refund of the purchase price. CONSEQUENTIAL AND INCIDENTAL DAMAGES ARE NOT RECOVERABLE UNDER THIS WARRANTY.

**WARNING!** Keep container closed. Use with adequate ventilation. Excessive exposure by inhalation over an extended period of time may result in the development of pulmonary diseases including pneumoconiosis and silicosis. Crystalline Silica has been classified by IARC and NTP as a carcinogen. **FIRST AID:** In case of eye contact, flush with water for 15 minutes. If irritation persists, seek medical attention immediately. If inhaled, remove person to fresh air. If ingested, drink water to dilute. Seek medical attention immediately. In case of skin contact, wash thoroughly with plenty of soap and water. If irritation persists, seek medical attention. See MSDS for additional information.
